

Colton Fridgen

Software Developer

St. John's, Newfoundland • csttfridgen@mun.ca • coltonfridgen.com • linkedin.com/in/coltonfridgen • github.com/coltonfrstt

Work Experience

Keen, St. John's, NL

Jan. 2025 – Aug. 2025

Accounting & Bookkeeping Firm (Internal Tech Division)

Software Developer

- Designed and developed automated financial analytics tools integrating QuickBooks Online APIs with AI-driven workflows to generate variance analyses, actionable insights, and real-time business metrics.
- Participated in sprint planning, feature reviews, and early-stage architectural discussions, ensuring features were scoped, delivered, and documented on schedule.
- Collaborated closely with accounting professionals and business advisors to translate domain requirements into practical, software-based solutions tailored to real client needs.

Staples, Mount Pearl, NL

Aug. 2019 – Mar. 2025

Technology Sales Associate

- Provided hands-on technical support and troubleshooting for computers, peripherals, and operating systems.
- Diagnosed and resolved hardware and software issues, including system setup and data transfers.

Projects

KoltBot | AI-powered personal project knowledge assistant

Jun. 2025 – Present

- Built an AI-driven system that answers questions about my projects by ingesting and analyzing source code from GitHub repositories.
- Designed backend services for repository ingestion, code chunking, semantic retrieval, and conversational response generation.

Course Notifier | Automated university course availability alerts

Jul. 2024 – Oct. 2025

- Built an automated monitoring system that tracks university course availability and sends real-time notifications to users when seats open.
- Implemented backend services to periodically poll course data, detect state changes, and trigger email notifications.

Education

B.Sc. Computer Science, Minor in Political Science GPA: 3.51 / 4.0 | Dean's List (2024–2025)

Memorial University of Newfoundland | 2026
